## Fan Air Flow Monitor

*Affordable monitoring system  
for AC & DC fans*

### AFM Series

The AFM Series is a cost-effective airflow monitoring system that provides a simple alternative for indicating airflow in AC or DC fan/blower applications. The AFM module operates an optical LED or audible alarm when airflow falls below 8.2 ft/s due to fan filter clogs or interference with the fan blade.

### Features and Benefits

- Works with and without a fan filter
- Field retrofittable
- Mounts via clip or clamp
- Installs perpendicular to front or intake side of fan
- Available as a kit with fan guard (80, 90 & 120mm)
- Small size - 34 x 17.5 x 7.5 mm (1.3 x 0.7 x 0.3")
- Operating life: > 100,000 cycles
- Operating temperature range: -20° C to 50° C

### Applications/Markets

- Servers
- Telecom Switches
- Power Supplies
- Kiosks/Electric Signage
- Medical Equipment
