

**ORION FANS**  
 10557 Metric Dr  
 Dallas, TX 75243

**Product Change Notification: DC Fan Series**

Issued January 13, 2020, Updated July 26, 2024

**Type of Change:** Product Redesign. Electrical, Mechanical, and performance specifications impacted.

**Reason for Change:** Improvement in performance specifications, manufacturability, and change of the country of origin.

**Part Numbers Affected:** Multiple series, See Table (All Speeds, Bearing Types and Options)

**Implementation Date:** Varies, See Table. This is a rolling change and mixed inventories may exist for sale at distributors. Distributor partners can verify COO to determine design stock.

**Discussion:** Orion routinely makes changes to the designs of our Commercial Off the Shelf (COTS) products as we respond to the availability of parts for manufacturing, the global manufacturing context, and the state of the art in product design. Design changes were completed to coincide with a change of manufacturing location, utilizing the manufacturing capabilities at our Taiwan manufacturing facilities. Orion Fans retains the ability to manufacture the previous Made in China fan designs. For customers requesting to purchase the previous Made in China designs, please contact Orion Fans to receive custom ordering part numbers. The custom ordering part numbers will enable purchase of our Made in China designs with identical specifications as previous. Minimum Order Quantity requirements will apply when purchasing previous designs.
