

Product Change Notice
March 1, 2025

Products Affected: G70-4
Type of Change: Product Part Number Change
Implementation Date: Q1 2025

Discussion:

In 2017, the design of this product was updated to include 5 protective rings instead of the original 4. At that time, the part number was not updated to reflect the change. To align the part number with current design, we are updating the part number to **G70-5**.

Please note that this update only affects the product's part number. There have been no changes to the product specifications, performance, or design beyond the ring count modification implemented in 2017.

	OLD	NEW
Part Number	G70-4	G70-5
Number of Rings	5	5
Mounting Hole Diameter	5mm	5mm
Mounting Hole Spacing	61.5mm	61.5mm
