

ORION FANS

ORION. We'll make YOU a fan.

All Metal Fans

*IP55 and IP56-rated fans
for harsh environments*

All Metal Fans

Durable metal fan blades are preferable to plastic blades in harsh environment applications for their resistance to high temperatures and corrosive compounds. An example is in food services where high temperatures or grease may cause plastic impeller degradation.

Features and Benefits

- Aluminum die-cast frames and metal alloy impellers
- Dual ball bearing design with extended L10 life span of up to 65,000 hours
- AC fans available in 80-280mm sizes
- Airflow ranges 18–1130CFM
- Industry's shortest lead times

Applications/Markets

- Chemical process control
- HVAC equipment and blowers
- Medical equipment
- Military applications
- Remote antenna installation
- Wind power devices
