Orion Fans doubles the size of its North American headquarters to support growing global customer base...

Expanded Orion Fans Facility Increases Manufacturing Capacity, Further Reducing Lead Times

DALLAS, TX (June 4, 2019) – Orion Fans, a global leader in cooling fans and accessories, has expanded its Dallas-based North American headquarters. With a new 18,000 square foot addition to its current facility, Orion Fans has increased its domestic manufacturing capacity, enhanced logistic capabilities, and further reduced product lead times. This will help customers and channel partners shorten the design cycle and simplify the supply chain process.

Orion Fans plans to expand its labor force by 25% over the next two years to support the expansion.

Orion Fans develops and produces a broad line of AC fans, DC fans, EC fans, harsh environment fans, fan trays, fan accessories, motorized impellers and blowers. The facility will accelerate development of new products that meet special customer requirements in a wide range of applications. Combining a wide selection of fans and fan accessories with unsurpassed customer service, Orion Fans caters to engineers and buyers by designing and delivering innovative cooling solutions. Orion's product offering serves markets including appliances, alternative energy, automotive, electronic enclosures, HVAC, industrial, medical, oil and gas, transportation and more.

“The new facility is the foundation for our long-term strategy to grow not only in North America, but globally as well. The expansion of the headquarters and Dallas manufacturing facility demonstrates our continued commitment to customers and channel

partners. By integrating sales, service and support, Orion Fans is dedicated to enriching the customer experience by streamlining the design and purchasing processes,” said John Knight, President of Knight Electronics.

Contact Orion Fans at 10557 Metric Dr., Dallas, TX, 75243; call 800-323-2439, e-mail at dluna@orionfans.com.

Orion Fans, a division of Knight Electronics, Inc. is an ISO9001/2015 global manufacturer of standard and custom AC, EC and DC fans, fan accessories, fan trays, blowers, motorized impellers, and Louvered Filter Fan Kits. Established in 1995, Orion Fans supplies quality engineered and competitively priced cooling products and assemblies to OEMs worldwide. The company has engineering and manufacturing facilities in the United States, Europe, and Asia.
