Orion Fans Receives Quality in Business Certification from the International Trade Council

DALLAS, TX (August 8, 2019) – Orion Fans, a global leader in cooling fans and fan accessories, has been recognized by the renowned International Trade Council (ITC) with the illustrious Quality in Business Certification. As a global peak-body Chamber of Commerce, the ITC offers independent certifications that demonstrate an organization's adherence to global best business practices as benchmarked against the ITC's Quality in Business Standard. This certification is in recognition of Orion Fans' continued commitment to manufacturing high quality products that meet the satisfaction of customers.

To receive certification, Orion Fans passed a stringent and comprehensive audit covering 16 key sectors, 96 core criteria and 249 compliance indicators. To maintain the Quality in Business Certification and to ensure the public of the continued quality of the ITC brand, Orion Fans has agreed to the Quality in Business Certification requirements including audits of the Dallas-based facilities and products.

Orion Fans has recently expanded its Dallas-based North American headquarters to include a new 18,000 square foot facility that encompasses domestic manufacturing capacity and enhanced logistic capabilities. The new facility reduces product lead times and helps customers and channel partners shorten the design cycle and simplify the supply chain process.

“We are pleased to be recognized by the International Trade Council with this prestigious award,” said John Knight, President of Orion Fans. “We are proud to supply high quality cooling products and assemblies to OEMs worldwide.”

Orion Fans develops and produces a broad line of AC fans, DC fans, EC fans, harsh environment fans, fan trays, fan accessories, motorized impellers and blowers. The facility will accelerate development of new products that meet special customer requirements in a wide range of applications. Combining a wide selection of fans and fan accessories with unsurpassed customer service, Orion Fans caters to engineers and buyers by designing and delivering innovative cooling solutions. Orion's product offering serves markets including appliances, alternative energy, automotive, electronic enclosures, HVAC, industrial, medical, oil and gas, transportation and more.

Contact Orion Fans at 10557 Metric Dr., Dallas, TX, 75243; call 800-323-2439, e-mail at dluna@orionfans.com.

Orion Fans, a division of Knight Electronics, Inc. is an ISO9001/2015 global manufacturer of standard and custom AC, EC and DC fans, fan accessories, fan trays, blowers, motorized impellers, and Louvered Filter Fan Kits.
