

INGRESS PROTECTION (IP) RATINGS GUIDE

A digit of "0" for either solids or liquids indicates no protection.

SOLIDS

1		Protection against solid objects greater than 50mm.
2		Protection against solid objects greater than 12.5mm.
3		Protected against solid objects greater than 2.5mm.
4		Protected against solid objects greater than 1mm.
5		Dust Protected. Limited ingress of dust. Will not interfere with equipment.
6		Dust tight. No ingress of dust permitted.
X		Protection level not formally tested.

LIQUIDS

1		Protection against vertically falling droplets.	7		Protection against water immersion between 15cm - 1m deep for 30 minutes.
2		Protection against vertically falling droplets when tilted up to 15°.	8		Protection against permanent water submersion up to 3m.
3		Protection against spraying water up to an angle of 60°.	9		Protection from close range, powerful, high temperature water jets.
4		Protection against splashes of water from all angles.	9K		The K on the rating denotes the products' specific degree of protection for use in road vehicles as per ISO 20653.
5		Protection against low pressure jets of water from any angle.	X		Protection level not formally tested.
6		Protection against high pressure jets of water.
