

ORION FANS

OD254AP UL 60079 Series

254mm DC Fan Designed for Hazardous Locations

The OD254AP product family offers a high-airflow fan series certified for operation in hazardous environments, ensuring equipment will not become an ignition source. This series combines UL 60079 compliance, IP68 protection, and airflow up to 1,000 CFM for reliable performance in demanding industrial applications.

FEATURES AND BENEFITS

- 254mm x 89mm Frame Size
- UL 60079 Certified*
- Designed for Class 1 Zone 2 Hazardous locations
- Explosion & Ignition Protected
- IP68-Rated
- 12V, 24V, & 48V DC Options
- Up to 1,000 CFM

APPLICATIONS/MARKETS

- Industrial Equipment
- Oil & Gas
- Chemical & Petrochemical
- Energy & Power
- Battery Energy Storage Systems
- Hydrogen & Alternative Energy

*Note: UL 60079 is the North American adoption/implementation of the internationally harmonized IEC 60079 series of standards. These define requirements for equipment that can safely operate where flammable gases, vapors, or combustible dusts may be present and create explosion risks.
