

ORION FANS

Steel Wire Guards

Available in 25mm-280mm

Steel wire guards add dependable protection for fans and nearby equipment while maintaining the airflow your application depends on. The open wire design helps improve safety without sacrificing performance.

FEATURES AND BENEFITS

- Protects fans from debris and accidental contact
- Open wire design to maintain airflow
- Durable protective finish
- Easy installation
- Rigid welded construction for structural strength

APPLICATIONS/MARKETS

- Ventilation openings
- Air circulation and exhaust systems
- Industrial equipment
- Electrical and electronics enclosures
- Automation and control panels
- Data centers and telecom equipment
